INGREDIENTS	Bovine Hide Collagen Peptides	Collagen Peptides (from wild-caught white fish)	Organic Chicken Bone Broth Powder	Beef Liver, Gelatin Capsule																																																																																																							
TRANSPARENCY	COLLAGEN PEPTIDE HYDROLYSIS PROCESSING	Hydrolyzed using purified water, proteolytic enzymes (nutrients that break down protein) and hot, pressurized air.	Made using bones, water and heat. Broth is then filtered and spray dried into a powder using hot, pressurized air.	N/A																																																																																																							
	TESTING PRACTICES	We regularly and rigorously test our raw materials and finished products for microorganisms and heavy metals to ensure are products are in full compliance with the standards of Prop 65 and NSF International, an accredited, independent third-party certification body that certifies production facilities to verify they meet public health and safety standards.																																																																																																									
	MANUFACTURING INFORMATION	This product is manufactured in an NSF-certified facility that processes milk, eggs, fish, soy, peanuts, and tree nuts.																																																																																																									
	SUPPORTING RESEARCH			N/A	N/A
